

Implementation of the coincidence histograms (CH) in Offline

(Brussels group: Mauricio Suárez Durán, Ioana C. Mariș, Orazio Zapparrata and Katarína Šimková)

- ▶ A new class in CDAS-User to read and store the CH in data
`~/cdas-user/-/tree/coinciHistoImplement`
- ▶ Branch in Offline:
`~/offline/-/tree/coinciHistoImplement`
- ▶ Charge reconstruction fitting algorithm implemented in SDHistogramFitterKGB module
- ▶ Storage of the histograms in the ADST files and display in the EventBrowser
- ▶ Outlook: Implement the use of CH in the reconstruction

Thanks to David Smith for help us with the CDAS implementation.
